SKILLS

Design Systems · Component Libraries · Design Tokens · UX/UI Design · Design-Dev Handoff · Figma Plugin Development · Accessibility / WCAG · AI / ML for Design Operations · Project Management

TOOLS

Figma · Storybook · Zeplin · Adobe Creative Suite · JavaScript · HTML / CSS · React · Node.js · GraphQL · Python · Docker · Monday.com

ML / Data YOLOv8 · OmniParser · Label Studio · Hugging Face · MLflow

AI Tooling Claude Code · Figma AI · Dovetail

AWARDS

Ameritas Award for Senior Design Project in Workflow Optimization & Automation · April 2022

EXPERIENCE

Design System Specialist · London Computer Systems

Landen, OH | Apr. 2025 – Present

- Own and maintain the design system and Figma component library for Rent Manager Express (RMX), a large-scale property management SaaS product.
- Conducted a comprehensive UI audit spanning 550+ issues across 182 product features, presenting findings and remediation strategy to product leadership.
- Architected and led a full overhaul of the RMX Pre-made Pages library, establishing a scalable component and template ecosystem.
- Created a "recycling center" Figma workflow enabling designers to submit finalized screens for systematic library reuse, reducing redundant design work.
- Serve as a design system advocate, leading training sessions and promoting DS adoption.
- Proposed and scoped a team expansion plan growing the design system team from 2 to 6 specialists with distinct product-facing and engineering-facing tracks.
- Built an ML-powered audit pipeline using YOLOv8 object detection and OmniParser for semantic UI understanding, achieving 92% precision in component identification within a test set.
- Developed custom Figma plugins using Claude Code to automate design system workflows, reducing repetitive manual overhead for the DS team.

UI Designer — qManage · Aug. 2024 – Apr. 2025

- Designed UI components and screen flows for qManage, a standalone LCS product outside of the core Rent Manager suite.
- Maintained Figma libraries and contributed to component standardization ahead of the company-wide product restructure.

UX Analyst · Sep. 2023 – Aug. 2024

- Designed product experiences for Rent Manager based on customer research and business requirements, collaborating with Business Analysts and UI Design teams.
- Conducted exploratory and concept-validation research to inform feature development and surface user pain points.

Product Designer · SupplyHive™

Chicago, IL / Remote | May 2022 – Mar. 2023

- Led product design for a supplier performance management platform serving Fortune 500 clients including McDonald's and Meta.
- Owned end-to-end design from requirements gathering with C-suite stakeholders to high-fidelity mockups and developer handoff.
- Built and maintained an internal design system and component library, ensuring visual and functional consistency across the platform.
- Partnered with the sales team to translate client feedback and prospect needs into new feature concepts and roadmap priorities.
- Contributed to marketing by maintaining the WordPress landing site and authoring email newsletter campaigns for client audiences.
- Participated in all Agile ceremonies with the development team, bridging design intent and engineering execution.

Product Development Engineer · Refract Labs LLC

Cincinnati, OH / Hybrid | Sep. 2020 – Apr. 2022

- Joined as a founding-stage frontend developer (4th employee), building web applications for startup and enterprise clients.
- Grew into a project management role, leading Scrum ceremonies, sprint planning, and retrospectives across multiple client projects.
- Transitioned into product engineering, owning requirements documentation, user stories, wireframes, and high-fidelity Figma mockups.
- Interfaced directly with clients in prospect calls and project reviews, managing scope alignment and stakeholder expectations.
- Assisted with developer interviews and hiring, contributing to team growth from a small startup to a multi-product agency.

Information Technology Consultant · UC Lindner College of Business

Cincinnati, OH | Oct. 2019 – Dec. 2020

- Provided L1/L2 IT support to students and faculty, managing service request queues in ServiceNow.
- Wrote and maintained Python automation scripts to integrate disparate technologies and improve team workflows.
- Managed loaner device fleets, software license inventories, and enterprise network administration tasks.

Behavior Analyst Apprentice · iQ4

Remote | Mar. 2020 – Apr. 2020

- Applied NICE (National Initiative for Cybersecurity Education) frameworks to a team-based case study with other cybersecurity apprentices during an 8 week training program.
- Earned a U.S. Department of Labor-recognized cybersecurity credential through the Cybersecurity Workforce Alliance.

EDUCATION

University of Cincinnati · B.S. Information Technology

Cincinnati, OH | May 2022

Software Development Concentration · Dean's List
